Date Founded:

1989

"ECS was able to provide the technology we were looking for, at a very competitive price. Their wireless solution has enabled our inside sales and customer service personnel to be more effective in their ability to serve our customers more efficiently. ECS sales & technical personnel are professional & quick to respond to any questions or problems we have. I would recommend them to anyone looking for a new or upgraded phone system."

-Maxpro Technologies

EnGenius

POLYCOM

We at Electronic Communication Services have been providing the tri-state region with quality products and services since 1989. Since day one, we have been on the leading edge of the always evolving telecommunications industry. One thing, however, has remained constant, our intent to provide the best customer service you can find. Customer service and reliable products that give businesses the tools they need to communicate effortlessly and efficiently are what E.C.S. was founded on and continues to grow on. Having been in this industry for over two decades, we have customers with fewer than five phones to customers with hundreds of phones. We know we have a solution that will satisfy your communication needs.
